

PRACTICUM PREPARATION

Preparing to Teach & Learn in a Virtual Space

Certificate of Participation

Kee Seop Ahn

as a participant in the Professional Learning Series presentation

The best thing I learned was... How to make technology interactive. That was the best thing because I took your class last year and your class is amazing (I learned this stuff but the refresher was needed)..

I really want to learn more about... ideas for student collaboration, interactive learning, meeting the needs of all learners.
