

## IMPORTANT

1. Use only the respirator you are fit-tested on.
2. Understand and follow correct procedures for replacement and disposal.
3. Always follow correct procedures for donning and doffing.
4. Complete respirator fit-testing every two years.
5. Contact OHSS if you experience a weight gain/loss of > 4.5 kg (10 lbs.), or if you have a change in facial features.
6. Contact OHSS if you experience a change in medical status that may affect your ability to wear a respirator (i.e. significant respiratory conditions).
