

TECHNOLOGIST MODULE

A LEARNING RESOURCE FOR TEACHERS TO
EXPAND THEIR KNOWLEDGE OF DIGITAL
LITERACY AND

DESIGN-THINKING

DESIGN THINKING IS BROKEN DOWN INTO
5 STEPS TO HELP YOUR LEARNERS:

Empathize

Understand your students' needs

Define

Identify a problem or challenge based
on the needs you discovered

Ideate

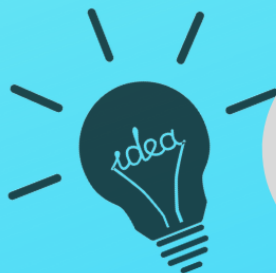

Brainstorm possible solutions by
asking "how might I?" questions

Prototype

Time to try it out! Though it sounds intimidating
this is simply the trial run to receive feedback

Connect to the Curriculum

Take your integration of technology and
integrate it into your curriculum content!

**By incorporating this
thinking into the classroom,
teachers can elevate their
technological use from
Substitution to higher
level SAMR integration**
